Express individuality with what you own.

Introducing the exclusive I-O Data Portable Hard Disk from Japan.

The PERFECT combi of DesignXColorXFunction!

I-O Data, a renowned computer peripheral brand from Japan, is available for the first time in Singapore and brought in specially by Version 2 who also distributes ESET NOD32 Antivirus and CyberLink to name a few.

Its latest Portable Hard Disk from the HDPNC series comes in a single capacity of 500GB, 3 irresistible color choices and is targeted at IT trendsetters who like their gadgets to be representative of whom they are.

Uniquely shaped like a PC folder icon, it is 256-bit encrypted and protects your valuable data securely.

Go hand-in-hand with Style&Portability!

Own a Netbook? Checked.

Loving its lightweight design but missing the functionality of a DVD drive? Checked.

We have the fix for you.

Unveiling the second offering from Japanese PC peripheral manufacturer, I-O Data, made available in Singapore for the first time by Version 2 who is also the exclusive distributor for ESET NOD32 Antivirus, CyberLink to name a few.

The DVRPC Series is an ideal blend of aesthetics-meets-innovation. Just 20mm in thickness and you will love the clever idea of storing its USB cabling away - fastened along the base and into a unique dock.

Released in 2 classic colors, black and white – it also comes bundled with Nero 9 disc-burning software!

Be mesmerized again. Experience the ease & delight of multimedia effects wherever you are.
